Like a second skin

Simple and convenient transportation

DDmembranBOX

With our new DD Membranbox, transportation of crowns and bridges is simple and convenient. Simply place your dental restoration on the membrane surface and close the box. The second membrane applies itself like a second skin around your work and holds it in place. Therefore a safe shipment as well as a professional appearance is guaranteed.

Advantages:

- "ready-to-use"
- professional look and feel
- multiple usage possible
- work is safely hold in place
- convenient packaging, simple handling
- measurements: 40 x 40 x 20 mm

Benefit from our set-prices!

order-no.	article	item
